The Wessex ProLine roller mower heralded a new dimension of sports and amenity turf maintenance –
A cost effective way of professional turf mowing.

No ordinary mower...
The Wessex ProLine roller mower is not to be confused with a rotary topper or finishing mower. With full width rollers front and rear, precision blades and an exceptionally high blade tip speed, a premium cut quality with a professional striped effect is easily achieved.

Traditional cylinder mowers incur high costs!
Traditionally cylinder mowers were the only way to achieve a premium cut. The annual costs of cylinder regrinds, bottom blade replacements, constant bed knife adjustments and hydraulic oil filters were an accepted overhead. With the Wessex ProLine RMX roller mower, this has changed!

“It seems Wessex have thought of it all”
– SAYS HORTICULTURE WEEK MAGAZINE REPORTER

EASY SERVICING AND MAINTENANCE

The RMX roller mower range has been designed to make essential maintenance easy.

Quarter turn fixings allow quick removal of belt & covers. Simple cutting height adjustment.

THE WESSEX BELT-DRIVEN TRANSMISSION OFFERS...

- Quieter operation
- Lower fuel consumption
- Lower maintenance costs

compared with shaft-driven alternatives

WESSEX 3 YEAR WARRANTY

Turn to page 22 to find out more.

KEY FEATURES & BENEFITS

1. QUARTER TURN GUARD FIXINGS – Time saving for ease of maintenance.
2. FLOATING LINKAGE POINTS – Allows ground contours to be followed accurately.
3. FULL WIDTH ROLLERS – Follows ground contours accurately, leaving a professional striped effect on the turf.
4. 5MM HEAVY PRESSED STEEL DECK – Integral strength for long service life. Sand blasted and powder coated for maximum durability.
5. RIGID BELT TENSIONERS – Ensures constant power transmission. No bounce as with a spring tensioner.
6. SIMPLE CUTTING HEIGHT ADJUSTMENT – Single spanner operation allows infinite cutting height variation. Greasable threads are enclosed beneath the deck to protect from debris.
7. TWIN BELT DRIVE – For maximum power transmission to cope with larger volumes of grass.
8. HEAVY DUTY BEVEL GEARBOX – For smooth and quiet operation
9. ROLLER SCRAPER – Keeps rollers free of debris build-up.
10. ROTOR BAFFLES – Ensure even grass distribution across the full width of the machine.
11. SINGLE BLADE BOLT FIXINGS – Are self tightening and act as shock overload protection.
12. ANTI-SCALP DISCS – Eliminate scalping and protect the turf when cutting very low.
13. TWIN TAPERED ROLLER BEARINGS – Ensure a long service life, as they are designed to withstand side-thrust when turning during mowing.
14. CAST ROLLER END CAPS – Keep maintenance costs to a minimum, as components can be replaced individually.
15. FRICTION WELDED CUTTER SPINDLES – Run in heavy cast housing for maximum durability.
16. GOLDCUT BLADES – Zone hardened precision blades spin at 96.8m/sec for premium cut quality at a fast forward speed. Blades pivot to minimise stone damage, and have an upturn to generate suction effect.

THE BENEFITS OF A PROFESSIONAL ROLLER MOWER
Ideal for large private estates and sports complexes where road travel is not necessary, the **RMX-300** has a working width of 3.0m and will complement tractors from 55hp upwards.

The **RMX-180**, with a 1.8m working width is the smallest of the RMX Series roller mowers. Requiring a tractor of only 30hp, its compact design allows easy transport on a trailer – ideal for the contractor needing to transport the machine from site to site.

**“OTHER GROUNDSMEN COME UP TO ME AND ASK WHAT KIND OF CYLINDER MOWER WE ARE USING? WHEN I TELL THEM IT’S A ROTARY, DISBELIEF TURNS INTO A WHOLE CONVERSATION ABOUT OUR WESSEX PROLINE RMX-180 ROLLER MOWER”**

– David Hurst - University Groundsman

**“WE’RE VERY PLEASED WITH THE FINISH WE GET ON OUR CRICKET OUTFIELD. ADJUSTMENT IS EASY AND SERVICING IS SIMPLE AND ECONOMIC”**

– Michael Clark - Private School Groundsman

Popular with councils and local authorities, the **RMX-240** with its 2.4m working width is the widest rigid roller mower which can be transported on the public highway behind a tractor.

---

**SPECIFICATIONS RMX-180**

- Cutting width: 1.8m
- Overall width: 1.93m
- Approx weight: 467kg
- Cutting height range: 10-100mm
- No. of cutting spindles: 3
- Power required: 30hp
- Workrate (at 12mph): 7.4 acres/hr

The RMX-360 has 6 rotors and full width rollers front and rear. This means that ground contours are followed accurately and ensures an un-broken striped effect on the turf.

The RMX-360 is designed for use on large open flat areas without sharp undulations i.e., school playing fields and sports pitches. The RMX-360 can be mounted on the tractors 3 point linkage, or with the ProGlider chassis which allows the machine to be trailed on the drawbar.

**BENEFITS OF PROGLIDER CHASSIS**

**TRAILED AS OPPOSED TO MOUNTED**
- Eliminates road-bounce.

**INDEPENDENT SUSPENSION**
- Smooth road travel.

**ROAD LIGHTING KIT**
- Be seen in the dark!

**WHEELS AND RUNNING GEAR**
- Rated to 40kph

**SPECIFICATIONS RMX-360**

- **Cutting width**: 3.6m
- **Overall width**: 3.73m
- **Transport width**: 2.4m
- **Approx weight**: 990kg
- **Cutting height range**: 10-100mm
- **No. of cutting spindles**: 6
- **Power required**: 65hp
- **Workrate (at 12mph)**: 14.8 acres/hr

---

Offering a generous 3.6m working width, yet within highway width restrictions in transport, the **RMX-360** is the ideal local authority machine.
The Wessex ProLine **RMX TRI-DECK** machines have set a new benchmark in high output roller mowers. Incorporating all the benefits of the popular rigid deck units into one superb machine, these mowers are the perfect choice for the council and local authority contractor.

Reduce mowing times and increase output and profitability!

**Wessex patents**

The Wessex ProLine tri-deck machines carry patents on their design which puts them in a league of their own.

**RMX 500 560 680 800**

**PROLINE PROLINE PROLINE PROLINE**

**KEY FEATURES & BENEFITS**

**INDEPENDENT WING CONTROL WITH NO ELECTRO-HYDRAULICS OR CLUTCHES**

- Low maintenance.

**OPERATIONAL WITH ONE OR BOTH WINGS LIFTED**

- Increased versatility.

**WING DECKS WILL CUT BETWEEN -30° AND +30° FROM HORIZONTAL**

- Ideal for bank work.

**REAR DECK PIVOTS TO FOLLOW DIRECTION OF TRAVEL**

- Reduces side scuffing when turning.

**INDEPENDENT FLOAT ON ALL DECKS**

- Superb ground contour following.

**TURF TYRES**

- For minimal ground compaction.

**INDEPENDENT SUSPENSION**

- For smooth road travel.

**AVAILABLE IN**

- 5.0m, 5.6m, 6.8m and 8.0m working widths.

**OPTIONAL**

- Spare wheel and hydraulic brakes.

**REDUCED MAINTENANCE**

- Save both time and money.

**PREMIUM CUT**

- Superb results every time.

**REDUCE FUEL CONSUMPTION**

- Save up to 50% in fuel costs.

“**ON A RECENT DEMONSTRATION WE WERE CUTTING WITH THE RMX-560 AT 17KPH, WHICH IS OVER 50% FASTER THAN OUR CYLINDER MOWERS & I COULDN’T TELL THE DIFFERENCE IN THE CUT QUALITY**”

– TURF FARM, SCOTLAND

**IMAGE SHOWN RMX-560**

**MAIN IMAGE SHOWN RMX-680**
The **RMX-800** with its massive 8.0m working width will cover the ground like nothing else!

It's getting bigger and better!

This superb machine will leave a premium cut quality at a stunning rate of nearly 40 acres per hour. Ideally suited to turf growers and polo pitches, or anyone who is cutting large acreage regularly and wanting a superb finish and fast!

**“SUPERB FINISH AND FAST – NEARLY 40 ACRES PER HOUR!”**

### WINTER SERVICE KIT

Regular maintenance is essential to maintain optimum performance from your machine. The Winter Service kit includes GoldCut blades, fixings, drive belts and ProMotiv grease.

### PROMULCHER MULCHING BLADES

As the grass clippings flow over the blades they are thoroughly lacerated on the serrated up-turn. This enhances the decomposition process of the clippings.

### WINTER SERVICE KIT

The SpiroCut 4 blade system is a unique cutting system cleverly designed using 4 precision GoldCut blades, a series of curved blade carriers and the laws of centrifugal force to double the cuts per revolution. The SpiroCut 4 blade system will increase work rates and profitability.

### PROMOTIV XP1 & XP2 HIGH PERFORMANCE GREASE

The Wessex ProMotiv XP1 is a high quality, general purpose grease which is recommended for the general lubrication of moving parts, i.e. height adjustment, roller bearings, PTO shaft and UJ’s etc. The Wessex ProMotiv XP2 is a specially formulated lithium based grease with high speed and high temperature properties, and should be used in the RMX spindles, due to their high RPM.
Reduced budgets and less frequent mowing cycles mean that the local authorities require a machine that will cut and mulch lush grass without untidy swathing, as with a rotary mower. The Wessex FRX-150/FRX-150-H (hydraulic version) out-front flail mowers will do just that!

**KEY FEATURES & BENEFITS**

1. **AERODYNAMIC FLAILS** – Minimum power consumption.
2. **FULL WIDTH ANTI-SCALP ROLLER** – No unsightly scalping.
3. **INTEGRAL ROLLER BEARINGS** – Protected for long service life.
4. **SIMPLE AND POSITIVE HEIGHT ADJUSTMENT** – Ease of operation.
5. **PUNCTURE PROOF TYRES** – Low maintenance.
7. **FULLY GUARDED TO HSE SPECIFICATIONS** – Meets local authority requirements.
8. **CONTIFLOW DECK DESIGN** – Low profile deck design follows the path of the flails at a constant distance increasing the suction effect and improving mulching efficiency.
9. **FLOATING LINKAGE** – Excellent ground contour following and a generous lift height which is ideal for kerb clearance and trailer ramps etc.
10. **HARDENED STEEL STONE GUARDS** – Safety in public areas.
11. **RIGHT ANGLE DRIVE GEARBOX OR HYDRAULIC MOTOR** – Smooth and quiet operation.
12. **ROTOR BEARING GUARDS** – Protected for long service life.
13. **ADJUSTABLE SIDE SKIDS WITH REMOVABLE WEAR-SHOES** – Low maintenance costs.

FINISHING MOWERS

The Wessex ProLine CR SERIES finishing mowers produce first-class results on regularly mown areas, and come in a choice of four working widths from 1.2 to 2.4m.

With its heavy-duty construction, the CR mower is built to provide a long and hassle-free service life.

KEY FEATURES & BENEFITS

WIDE RANGE – Will suit compact tractors from 12-25hp.

SWINGING BLADES – Minimal power consumption and maximum resistance to stone damage.

ANTI-SCALP DISCS – Eliminate unsightly scalping.

SIMPLE HEIGHT ADJUSTMENT – Ease of operation.

FLOATING LINKAGE – Follows ground contours accurately.

3 OVERLAPPING ROTORS – No uncut strips of grass.

SIMPLE BELT TENSION – Ease of maintenance.

5 MM STEEL PLATE DECK – Durable and long lasting.

MULTI-FUNCTIONAL COLLECTORS

Available in 1.2m and 1.8m working widths, the STC collector is a true, all-year-round machine for the maintenance of public parks, large amenity areas, sports turf and private estates.

Whether the requirement is for a flail collector to cut and collect on an out of season wild flower meadow, a professional scarifier for use on a sports pitch, or for a sweeper collector for clearing autumn leaves from areas of parkland, the STC-120/180 is the ideal machine.

KEY FEATURES & BENEFITS

- **MULTIFUNCTIONAL** – Use one machine for sweeping, scarifying and flail mowing.
- **ALL YEAR ROUND MAINTENANCE MACHINE** – Reduced capital outlay.
- **SEMI MOUNTED TO THE TRACTOR** – High capacity machine on a small tractor, reduces running costs.
- **HYDRAULIC TIP** – Ease of emptying.
- **WIDE TURF TYRES** – Minimal ground compaction.
- **RUNS ON ITS OWN FOUR WHEELS** – Follows ground contours accurately.
- **SIMPLE HEIGHT ADJUSTMENT** – Ease of operation.
- **PREMIUM POWDER-COAT PAINT FINISH** – Maximum durability.
**Mode 1**

**STC SWEEPER COLLECTOR**
Collects autumn leaves and debris brilliantly.

When in sweeping mode, the STC is fitted with the brush rotor comprising 4 banks of hard-wearing polypropylene bristles which will lift autumn leaves, grass clippings and litter effortlessly into the hopper. The bristles, which are secured firmly into a pre-drilled strip with a wire staple, are a generous length to give a good 'flick' action ensuring that the material is thrown to the back of the hopper.

**Mode 2**

**STC FLAIL COLLECTOR**
Tackling long or short grass is no problem!

As a flail collector, the STC is fitted with a large diameter steel drum rotor with 4 rows of closely spaced flails, and 2 rows of draft paddles to create the suction for collecting the grass. The STC has no narrow throat as with many collectors, therefore long or short grass will be collected efficiently without blocking even in wet conditions.

Not only will the STC leave a fine finish on short turf, but is also ideal for end of season clearance of wild flower areas or golf course rough.

**Mode 3**

**STC SCARIFIER COLLECTOR**
Leaves sports turf at the top of its game!

When in scarifying mode, the flail blades are replaced with 2mm verti-cutting knives for a professional scarifying operation. Ideal for sports field work or lawns, the STC scarifier will leave a clean cut through the turf at approx. 30mm centres and will collect the debris in one pass.

DEALER NETWORK

Wessex ProLine products are sold exclusively through the Wessex UK dealer and global distributor network. Our professional dealers have the market knowledge and experience to recommend the correct product for your application, and their in-house service and maintenance department provides a local centre for all your after service requirements.

SPARE PARTS

Only genuine Wessex spare parts should be used to maintain optimum performance from your Wessex machine. To minimise costly machine downtime, parts orders are dispatched daily to our professional dealer network by next-day carrier service (UK mainland), and 2 day for UK Highlands & Islands. If ordered before 1:00pm, parts will be dispatched the same day (subject to availability).

T: 01264 345878  E: parts@wessexintl.com

WESSEX AFTER-SALES & SERVICE BACK-UP

At Wessex International, our care for the customer does not stop at the time of machine purchase. Our dedicated aftersales team with their wealth of experience are here to tend to your needs throughout the working life of the machine. Whether it’s machine operation, advice on application, or a technical question over maintenance, we’re here to help.

3 YEAR WARRANTY

All RMX rollers mowers, CR series finishing mowers and the FRX out-front flails are available with a 3 year manufacturers warranty. The machine comes with a standard one year warranty, and a further 2 years are available at no cost by simply returning a request form at the time of machine installation.
